Constantinople, August 29.

**T**HE Port has granted Leave to the Algerine Deputies who are arrived at Smyrna, to come hither to treat about the renewal of Peace with Count Coliers Ambassadour of the States general here. Sig. Emo, the new Bailo from the Republick of Venice, arrived here the 19th Instant to succeed the Chevalier Ruzzini that Republick's Ambassadour, who is to have his Audience of Leave on the 3d of next Month. Celebi Mehemet Effendi, who was the Second Plenipotentiary of the Port at the Treaty of Passarowitz, is appointed to go Ambassadour to France, and will set out with all convenient Expedition accompanied by one of the French Ambassadour's chief Interpreters. Great Preparations are making for the Ceremony of the young Sultan's Circumcision, which is to be performed on the 17th of next Month. The 26th Instant a Fire broke out in a Mosque, which was entirely burnt down, and several Houses about it.

Warsaw, Sept. 19. The Palatine of Masovia, who is returned from his Embassy at Petersburg, seems very well satisfied with the Civilities he received during his Stay at that Place, the Czar having allowed him 24000 Polish Florins a Month for his own Table, and that of his Retinue. On the 13th Instant, this Palatine made a Visit to Prince Dolgoroucki, the Muscovite Ambassadour, and delivered some Letters to him, which he had received from the Czar. The said Palatine had this Day a long Audience of the King, but it is strongly reported, that what he negotiated in his Embassy will be made publick only in the Great Diet appointed to be held on the 1st of October next; in Order to which, the great Hall of the Senators is getting ready, as is also that of the Deputies, who are coming from their Palatinates and Districts, where several Petty Diets that had been broken up, have been re-assembled and brought to a happy Conclusion. The Czar's Ambassadour had a long Audience this Morning of the King, who seems well enough satisfied with what that Minister represented to him. 'Tis said that in the Diet the great General of the Crown will insist upon repairing and augmenting the Forts of Trinity, Bialaczkiou, and Caminieck, which are the Places that are most exposed towards Choczim, where the Turks continue their Works. The Plague in Podolia has entirely ceased, but we hear it continues still at Lemberg, where the Abbess of St. Bridget's Nunnery, and some of the Nuns have died of it, and other Convents were likewise infected. The Burghers of this City keep Guard at all the Passages and Avenues, and let no Person enter without a Bill of Health. Our Garrison, and certain Workmen who came from Saxony, are employed in building the King's Palace at Ujazdow.

Stockholm, Sept. 18. An Express is daily expected here from Copenhagen with the King of

Denmark's Ratification: Peace will then be proclaimed in all Parts of this Kingdom. The Court has sent Orders to Count Gyllenbourg, who had been appointed Plenipotentiary for the Congress at Brunswick, to return hither. Prince Lubomirski, who is gone to wait upon the King to the British Fleet, will set out next Week on his Return to Poland. This Day the King dined on board Admiral Norris's Ship. To-morrow his Majesty intends to go to Suder Tellie, there to review a Regiment.

Retisbon, Sept. 16. We have an Account, that his Imperial Majesty, at the Instances of the Kings of Great Britain and of Prussia, has consented that a Term of 4 or 6 Months be allowed for enquiring into the Grievances laid to the Charge of the Electors Palatine, and of Mayence, and of the Bishop of Spire, in order to give Satisfaction to the Protestants for the Infractions as well of the Treaty of Baden as of that of Westphalia, so that there is Ground to hope that the Differences relating to Religion, which have lain for so long a Time undressed, will shortly be amicably composed, to the Satisfaction of all who love Peace and Tranquility.

London, October 4.

Yesterday arrived a Mail from Holland.

Rome, Sept. 21. On Monday the 14th Instant the Pope held a Consistory, in which he performed the Ceremony of shutting and opening the Mouths of the Cardinals Althan and Salerne. Last Wednesday some armed Persons who were in a Coach belonging to Cardinal Althan, stopped without this City the Post-Boy who was bringing the Letters from Milan; they opened his Mail, took out the Packets, and brought them to the House of Cardinal Althan, who sent them to the Post-Office without their being perfumed. The Post-Boy entering the City without his Mail, which was left opened in the Fields, and without his Letters, was immediately seized; but he excused himself by alledging he had been forced so to do, and that besides he was obliged to obey the Ministers of the Emperour. 'Tis not yet known what may be the Consequences of this Affair, but Cardinal Althan having sent Yesterday one of his Officers to his Holiness to desire an Audience, it was refused; whereupon he immediately dispatched an Express to Vienna.

Venice, Sept. 27. Sig. Vincenti being recalled from Naples where he was Resident from this Republick, the Senate has appointed his Brother Sig. Francisco Vincenti to succeed him. General Count Schuylemberg set out on Saturday last for Germany, his native Country, to settle his private Affairs, but it is said he is to return hither in 2 or 3 Months. On Wednesday Night there arrived here from Spaaltro in Dalmatia a Boat with Letters from the Proveditor General Mocenigo for our Regency, which were dated the 12th Instant. They have not yet been made publick, nevertheless we are informed by other private Letters which came by the same Boat, that on the 8th Instant the Turkish Com-

Commissary arrived at the Camp of Vir, where he found General Mocenigo encamped with 6 Troops of Horse, besides a Body of 2000 Morlaicks, who were posted not far from that Place; that on the 10th in the Morning they decamped from Vir; that on the 12th they continued marching along the River Cinca; that the Turkish Commissary had likewise a good Train of Attendants; that they settled the Limits between the two States, at Plasencia and at Studiniza; and that the Line of these Limits extends to the Top of Mount Prolada, so that the River Cetina remains under the Dominion of this Republick, with a large and fertile Plain. The Limits on the Frontiers of Albania will likewise soon be regulated.

**Hague, Oct. 11.** The States of Holland are now assembled, to consider chiefly of Ways and Means for re-establishing their Finances, which are in great Disorder at present, and to regulate other Domestic Affairs. The Actions of the West India Company and its Subscriptions continue falling, and it is feared a few Days will produce many Bankruptcies at Amsterdam, by reason of the Contracts which abundance of People are concerned in. M. Van Oyen, Lieutenant-General of Horse in the Service of the States, died some Days ago. Mr. Whitworth set out on the 9th Instant for Berlin, as did likewise M. Flour, Minister of Holstein, this Day for England.
